

# A New Public Toilet Strategy for Hobart

@leisure Planners has been appointed by the City of Hobart to prepare a new Public Toilet Strategy for the City. The main purpose of the project is to assess the availability, location and distribution of public toilets within Hobart.

## What we want to know

- The gaps in Public Toilet provision- are there locations that require consideration for new or improved public toilet infrastructure.
- Current issues in relation to cleanliness and management, safety, promotion of public toilets, signage and accessibility.
- What is important to you with regards to:
  - Where public toilets are
  - Where to find information about toilets
  - Specific design or features that are important
  - Particular toilets that need to be upgraded

## Ways to get involved

Fill in a survey or leave a comment at the project webpage  
[www.leisureplanners.com.au/city-of-hobart-public-toilet-strategy](http://www.leisureplanners.com.au/city-of-hobart-public-toilet-strategy)
